
THE MAZE
The escape game
Can you escape, or will you remain trapped here forever?

Oh no, your memory is erased! The CREATORS have locked you up in an experiment. This place is called: THE GLADE. The CREATORS are going to do everything to make sure that you can't escape THE MAZE. But you're not cowards!

Can you escape, or will you remain trapped here forever...?

Game materials

- *8 game boards*
  - *1 for each sector*
- *1 pawn*
- *1 die*
- *266 cards*
  - *80 blue cards (10 per sector)*
  - *32 green cards (4 per sector)*
  - *42 purple cards (6 per sector, no sector 8)*
  - *32 yellow cards (4 per sector)*
  - *80 red cards (10 per sector)*
- *1 computer with camera*
  - *Not included*
- *A pen and a sheet of paper*
  - *Not included*

Goal

The goal of this game is to escape THE MAZE. It is a cooperative game, meaning you win or lose together. You must combine your strengths to win.

Preparation

1. *Go to the-maze-boardgame.github.io/the-maze or scan the qr-code above*
2. *Place the game boards with the top down on the table*
3. *Turn the game board of sector 1*
4. *Put all the cards from sector 1 on the table (a stack per colour), the rest of the cards can be put away (you still need them later in the game)*
5. *Put the pawn on the first box*

The game

START

1. Enter your team name and your names on the website
2. Click on START THE MISSION
3. Watch the video

SECTOR 1-7

1. Roll the die
2. Move your pawn
3. Depending on the colour of the box you're standing on, take the top card from the stack of that color

BLUE: question YELLOW: clue PURPLE: challenge

GREEN: advantage RED: disadvantage WHITE: neutral

BLUE: click on the website on SCAN CARD , scan the qr-code and answer the question. You have two chances to answer the question.

CORRECT?: you earn a point (with points you can unlock the next sector)
WRONG?: you have one more chance!
WRONG AGAIN?: you lose one life

YELLOW: click on the website on SCAN CARD , scan the qr-code and read the clue. You need this at the end of the game! You need one clue per sector! You can only have 1 clue per sector! With these clues, you need to form a word at the final protocol!

PURPLE: click on the website on SCAN CARD, scan the qr-code and complete the challenge.

CORRECT?: you've unlocked the next sector!
WRONG?: you lose one life

GREEN: click on the website on SCAN CARD, scan the qr-code and do what the advantage says

RED: read the card and do what it says

WHITE: continue playing

IMPORTANT: THERE CAN BE GRIEVER ATTACKS!!!
This means that if you scan a card, a griever can attack you.
If you solve the challenge in time, you escape the griever.
If you have it wrong or time is up, you lose one life!

If you have completed a sector, you earn one life!
You cannot go over 5 lives!
You start the game with 5 lives

When you run out of lives, you go back to the beginning of the sector you are in. Your points are reset and you get 5 lives back. The clue you have earned in this sector is also reset and you have to earn it again.

4. *Do this until the website says the next sector is unlocked*
5. *If the next sector is unlocked, go to the box with the lock on the board (by rolling the die) and click on the website on UNLOCK SECTOR ...*
6. *Turn the game board of the next sector (make sure the lock and flag are together)*

SECTOR 8

1. *Do the same from the previous sector until you can unlock the final*
2. *Click on the website on UNLOCK FINAL and fill in the word with the clues you have found.*

If you come to a dead end and you have steps left you will return

Points per sector

Sector	Points that you need to unlock
1 → 2	5
2 → 3	7
3 → 4	9
4 → 5	11
5 → 6	13
6 → 7	15
7 → 8	17
8 → Final	19

The end

If you have found the word, you've escaped THE MAZE. Well done!

CONGRATULATIONS! YOU HAVE ESCAPED THE MAZE!
As you type in the final word, a loud, metallic click echoes through the labyrinth. The heavy stone walls grind to a halt. Slowly, a hidden steel door slides open, revealing a blinding light.
You and your team step through the threshold, leaving the shadows of the Glade behind you forever. You have outsmarted the Grievers, solved the puzzles, and beaten the experiment. The Creators' trial is finally over.
Your memories might still be blurry, but one thing is absolutely clear: you proved that unity and courage can conquer any maze.
Welcome back to freedom. You made it out alive.

Colour-blind?

We understand that it is difficult for people who are colour blind to play this game. That is why we have come up with a solution so that these people can play this game! Go to the-maze-boardgame.github.io/website or scan the qr code and download the game boards with the first letters of the colours on the boxes! Have fun!

Lose something?

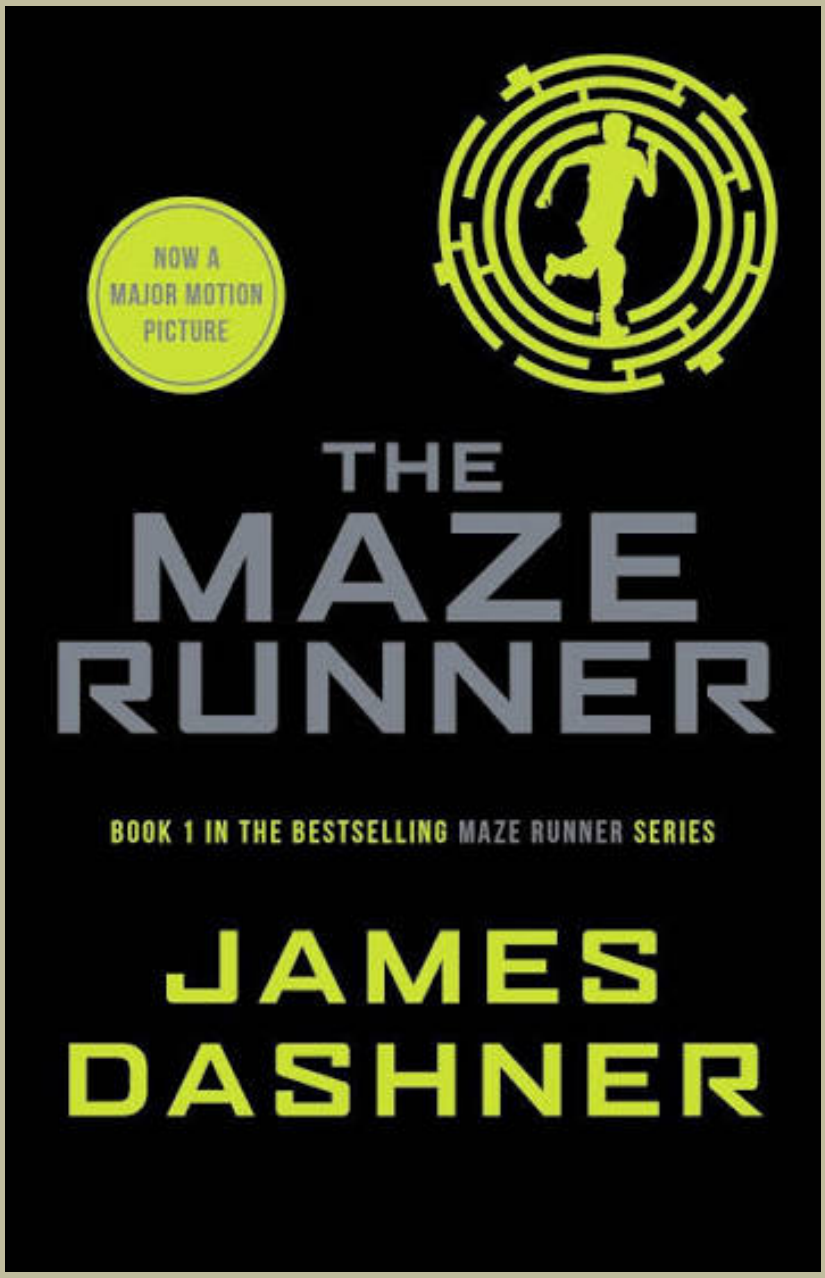

It is very annoying that you can no longer play this game because you have lost something! Therefore, you can find all the cards, game rules and game boards for people's color blind on the-maze-boardgame.github.io/website or by scanning the qr code above

Websites

Here you have the websites from this game

the-maze-boardgame.github.io/website	general materials and info
the-maze-boardgame.github.io/the-maze	the game-platform

If you liked this boardgame, we recommend that you read the book The Maze runner written by James Dashner. This game is based on that book.

It would be very helpful that you leave a review via this form (https://form.typeform.com/to/AEI0xb4u) or by scanning the qr code. Thanks!
